

# Untangling The Wires

This 60 minute CEU approved program is energetic and insightful and injects humor, passion, and a strong dose of knowledge into the design process.

## Key Takeaways

- Define and understand generic electrical terms
- Roles and responsibilities as it pertains to electricity and furniture
- Issuing specs with clear, complete electrical wire management details
- The different types of power access and when to use them
- To become more knowledgeable about furniture componentry

## About

Benhar Office Interiors continues to serve its architect and design community partners and influencer's of New York City through its continuing education and advanced trainings. Our very own ancillary design specialist delivers an engaging workshop to help your associates on basic electrical and wiring understanding in the design process. Erica Jaffe has trained thousands of professionals in the design community, with over a decade of industry experience and is well known for her seminar "Furniture 201."
